

Breaking Babylon Curse: *Messenjah Selah*

An illuminating new voice in reggae, Messenjah Selah has come together with Zion High Productions and Digital Ancient to compose a modern roots masterpiece. His delivery - **word, sound, and melody** - throughout this album, touches the heart while enriching the mind with fresh ideas. Surely this album will live long as it speaks to humanity as a whole with its timeless messages. (December 2008)

The first single off the album, *SHE ASK ME SAY*, is a boom tune that rejects false doctrines which suggest that external signs such as clothing or hairstyle are true indicators of spiritual attainment, imparting those who listen to seek JAH first, and all things shall be added unto them. Produced by Nick Fantastic, and selected from the up and coming PROVERBS riddim segment, this tune speaks to all lovers of reggae music everywhere.

HUMBLE, featuring Jah Dan, is a beautiful tune asking the Almighty to keep one's ego tame and to be used as a vessel for creative energy. This song is inspirational from the first chorus to the last, and is strengthened by some outstanding verses from both artists. This massive tune is sung on the same riddim as Norris Man's *BLESSED IS THE MAN*, *SUNSHOWER* riddim produced by the Zion I Kings. Messenjah Selah and Jah Dan are relentless in breaking Babylon's curse!

A heart of love, an insightful mind, and a voice for truth and rights! **Messenjah Selah**, born in St. Andrew Jamaica, spent some of his formative years in the Virgin Islands where he developed his musical talent. Through the inspiration of life and his favorite voices in music, including his mother's, M-Selah commenced a musical journey that has elevated him to great heights. M-Selah has crafted solid tunes from the start of his career over 10 years ago. His 2003 debut cd featured two hit singles, *I WILL SURVIVE* w/ Luciano and *JOY* w/ Sizzla.
